## METHOD

1 Preheat the oven to 190 degrees and line a tray with baking paper.

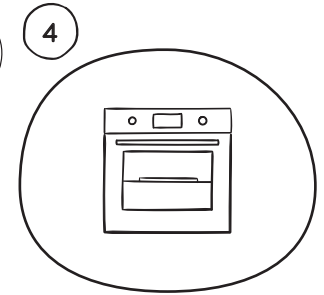

2 Mix all ingredients together in a large bowl with a wooden spoon. Using clean hands bring the batter together.

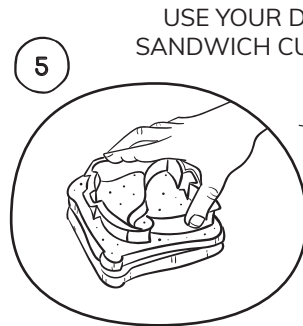

3 Shape cookies like little dinosaur feet and place on the lined tray. Cookies should be about 1-1.5 cm thick.

THEY WON'T SPREAD, SO CLOSE IS OKAY.

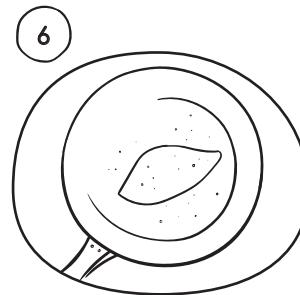

4 Bake for 18-20 minutes or until lightly golden around the edges. Let cool. While baking begin your sandwich.

**Handy Tip:**  
To easily peel, gently tap the egg at the big end first, then the small end, then tap all around to gently crack the shell.

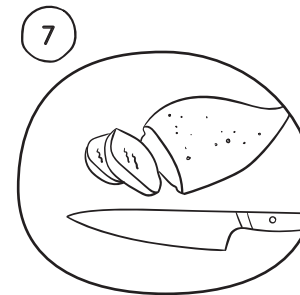

5 Press your dino sandwich cutter onto bread slices & press firmly until you cut all the way through.
